- Web Development: HTML5, CSS3, JavaScript, PHP.
- Database Management: MySQL.
- IT Support: Hardware Troubleshooting, System Configuration, Technical Maintenance

---

WORK EXPERIENCE

Customer Service Representative (Retail Account – Target)

I worked as a Customer Service Representative at ResultsCX, supporting the Target retail account. My role involved assisting customers with order inquiries, returns, payments, and general account concerns while ensuring a positive shopping experience. I communicated retail policies and product information clearly to customers from diverse backgrounds and resolved issues efficiently.

INTERNSHIP & PROJECTS

IT Intern | ACLC College, Taytay | February 2024 – May 2024

- Assisted in managing the operations of the Computer Laboratory and Library. Supported technical maintenance and troubleshooting for campus computing facilities.

Network Setup & Security System Installation | Academic Project Designed and implemented a comprehensive surveillance system for ACLC College of Taytay.

- Installed CCTV cameras across all floors to provide 24/7 security coverage. Executed network cabling layouts using Cat5e and Cat6 industry standards. Configured DVR systems for efficient video recording and data storage.
